

FIG. 1

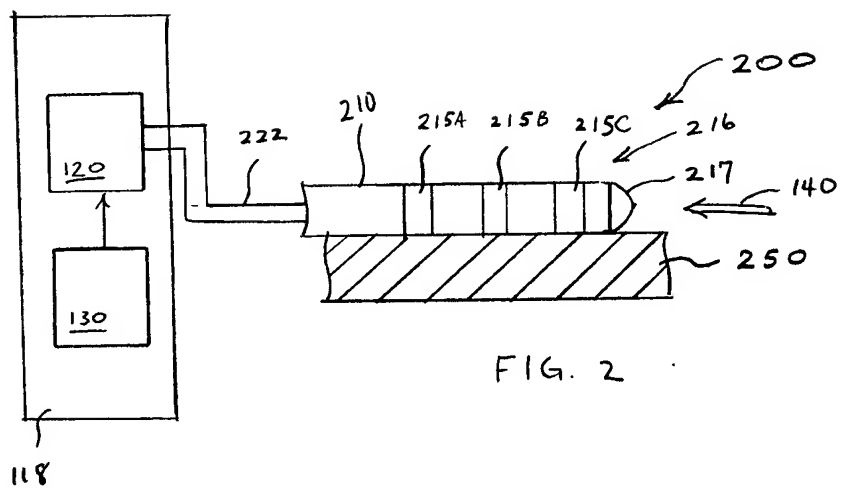

FIG. 2

Choosing an RF catheter having  
one or more electrodes

310

Choosing a duty cycle appropriate for  
the one or more electrodes

320

Delivering an RF energy via the  
electrode(s)

330

FIG. 3

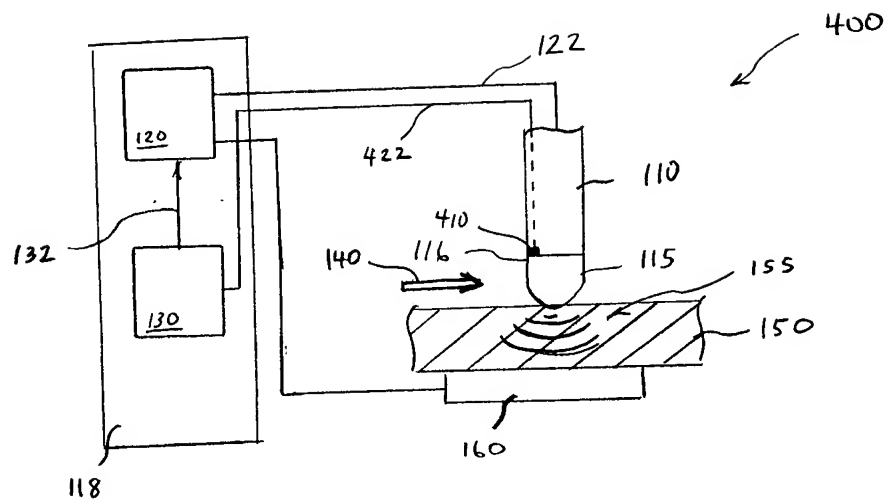

FIG. 4

Delivering an RF energy to a tissue  
via an electrode

~ 502

Determining a thermal decay  
proximate the electrode

~ 504

Changing a duty cycle of the RF  
energy, if necessary, based on the  
thermal decay

~ 506

FIG. 5
